Project name	Streamlining Ticket Assignment For Efficient Support Operations
Maximum mark	4 Marks

EMPATHY MAP CANVAS

1. Says (What the user says)

- “My issue is not resolved quickly.”
- “I submitted a ticket but did not get a response.”
- “I need faster support service.”
- “Why is my problem taking so long to solve?”

2. Thinks (What the user thinks)

- The support system should respond faster.
- My problem should be assigned to the right expert.
- The company should improve its support service.
- Waiting for a response is frustrating.

3. Does (What the user does)

- Creates a support ticket through the system.
- Checks ticket status regularly.
- Contacts support again if the issue is delayed.
- Provides details about the problem.

4. Feels (User emotions)

- Frustrated when the response is slow.
- Confused when the issue is not updated.
- Dissatisfied if the problem is not solved quickly.
- Happy when the issue is resolved quickly.

5. Pain Points (Problems faced)

- Slow ticket assignment.
- Delay in problem resolution.
- Tickets assigned to the wrong support agent.
- Lack of updates about ticket status.

6. Gains (User expectations / benefits)

- Quick response from the support team.
- Tickets assigned to the correct expert.
- Faster problem resolution.
- Clear updates and communication.
