

Date	10 March 2026
Team Project name	Streamlining Ticket Assignment For Efficient Support Operations
Team ID	SWTID-2026-1605
Maximum mark	4 Marks

PROBLEM _SOLUTION FIT TEMPLATE:

The **Problem–Solution Fit** explains how the proposed system solves the problems identified in the existing support ticket management process. It ensures that the developed solution directly addresses the needs of users and improves system efficiency.

1. Identified Problems

Problem	Description
Manual Ticket Assignment	Tickets are assigned manually by administrators, which takes time and may cause delays.
Uneven Workload Distribution	Some support agents receive too many tickets while others receive fewer tickets.
Slow Response Time	Customers may wait longer for responses due to inefficient ticket routing.
Lack of Priority Handling	Urgent issues may not be resolved quickly because tickets are not prioritized properly.
Poor Ticket Tracking	Customers and administrators may find it difficult to track ticket status and updates.

2. Proposed Solutions

Problem	Proposed Solution
---------	-------------------

Problem	Proposed Solution
Manual Ticket Assignment	Implement an automated ticket assignment system.
Uneven Workload Distribution	Assign tickets based on agent availability and workload.
Slow Response Time	Use automated routing to quickly assign tickets to suitable agents.
Lack of Priority Handling	Implement priority levels such as high, medium, and low.
Poor Ticket Tracking	Provide a ticket tracking dashboard for users and administrators.

3. Problem – Solution Fit Diagram

Problems		Solutions
Manual ticket assignment	→	Automated ticket assignment
Workload imbalance	→	Skill-based ticket routing
Slow response time	→	Faster automated assignment
No priority handling system	→	Priority-based ticket system
Poor tracking system monitoring	→	Real-time ticket monitoring

4. Benefits of the Solution

- Faster ticket assignment and resolution
- Balanced workload among support agents
- Improved customer satisfaction
- Better monitoring of support operations
- Efficient ticket tracking and management.
